States agree global norms to reduce illicit arms flows (PoA, ITI, FP, ATT)

The UN translates these norms into practical guidance on preventing illicit arms flows: MOSAIC

The UN and other actors use MOSAIC when States request assistance to prevent illicit arms flows

States receive consistent, high-quality support based on international good practices, codes of conduct and SOPs.

National controls over the full life-cycle of small arms and light weapons are strengthened

Illicit flows of small arms and light weapons are reduced (SDG Target 16.4)

Armed violence and related death rates are reduced (SDG Target 16.1)

How does MOSAIC bring about change?
