PROPOSAL OF MEXICO FOR A FOLLOW-UP IMPLEMENTATION MECHANISM

Principles:
− Reaffirmation of the central role of the United Nations.
− Practicality/pragmatism to advance the implementation on what has already been agreed to.
− Follow-up mechanism on a national basis.
− Efficiency in the use of existing resources and avoiding the duplication of efforts.
− Promotion of transparency.
− Reaffirmation of sovereign equality.
− Linkage with capacity building efforts.

Process:
1. Periodical submission of national reports to the Secretariat (UNODA), within the framework of the First Committee, on the implementation of rules, norms and principles previously agreed upon, and other related measures. The reports could emphasize, besides what has been achieved so far, challenges or difficulties in implementation.
2. To request the Secretariat to compile the reports received. Present to Member States a compilation of achievements and major challenges of implementation.
3. From the basis of the compilation provided by the Secretariat, identify the main and concrete needs for cooperation, that will aid in channeling capacity-building efforts, including those of regional nature.
